### **High Water at Mud Lake**

Be it hereby resolved, that the Watermaster be authorized to determine when diversion is needed and to divert any high water. That such water be considered stored in the aquifer, with rights to the water being retained by the district. Diversion of said waters would be by diverting at the Lone Tree Diversion, and pumping through the diversion canal at the Mud Lake Water Users.

### **Collection of Water Assessments**

Be it hereby resolved, that no ditch, canal co., or other water user shall have the right to demand and receive water, and the Watermaster shall not deliver such water, until full payment is made. Said payment becomes due April 1, and becomes delinquent April 15, and if not paid by April 15, shall bear interest from the date of April 1, until paid at the rate of 8% per annum.

Be it further resolved that government agencies be exempt from the above provisions to the extent necessary for them to comply with payments according to the provisions of Federal law, and that the Watermaster of District 31, be authorized to enter into contract with said agencies of the United States for payment of assessment as provided in the budget.

### **Mud Lake Water Users**

Be it hereby resolved, that any water user that completes the water year with a negative balance on the Mud Lake balance sheet shall have that negative balance carried forward to the April draft column on the balance sheet of the following year, and said negative balance shall be charged to the Mud Lake allotment of said following year, as set forth in part 5, paragraph 4 of the Mud Lake Decree.

### **District Billings and Collections**

Be it hereby resolved, that the Clark County Auditor make up a roll of all Water District 31 users to include all of Clark and Jefferson County users. #### **ADOPT RESOLUTIONS**

**Bill Frederiksen made a motion that the resolutions be adopted. Don Burtenshaw seconded the motion. Motion passed.**

#### **IDWR REPORT**

Scott Brynell reported from the IDWR that the water call would affect everything but domestic wells. There was group discussion about the channel alterations that are being done by Larsen Farms to Beaver Creek. New channels have been built but no water has been allowed to flow through them. A small portion of an existing water right transfer has been denied. There are concerns of the sand and silt problems on the waterways below these channels. At this time the Corp. of Engineers is reviewing this channel alteration. This permit has not been sent out for advertisement.

#### **OTHER BUSINESS**

Deputy Watermaster Brett Murdock reported that there are still sufficient funds for beaver. Ron Sperl has been doing the trapping. Dams can be removed if they are less than a year old. There is a season on beaver but if they are being caught out of season the trapper must have a special permit. The special permit from the Idaho Department of Fish & Game can be applied for to trap problem beaver affecting water delivery.
